

Please don't force the National "Do Not Call" rules on us, in Wisconsin. We want to keep our privacy. If we want anyone's service, we'd like to call them, and have a live person answer the phone. We don't want to be disturbed at any and all times of the day, by all kinds of ridiculous calls, made by a machine, most of the time. They're in business. They should put up with the inconveniences, not us. Let's go back to the idea that the consumer is always right. I'm sending this for my husband, Frank Petrusich, and myself. Thank you for your service. Yvonne Petusich
